Patrick Adegbesan Resume

OGUN, Nigeria | Email |+234 701 961 7272 LinkedIn | GitHub | Portfolio

Profile

Hands-on and detail-oriented developer with strong technical expertise in full-stack web development. Skilled in delivering responsive, user-friendly applications and solving real-world problems through modern technologies. Demonstrated ability to contribute effectively to collaborative projects and independent builds.

Skills

- Programming Languages: Python, JavaScript, TypeScript, HTML, CSS, C#
- Frameworks & Libraries: Django, React, Next.js, Node.js, Express, Redux, Tailwind CSS, Vue.js
- Tools & Practices: Git/GitHub, CI/CD, RESTful APIs, Django ORM & migrations, Agile workflows, responsive design, authentication (OAuth, JWT)
- Other: Database design (PostgreSQL, SQLite, MySQL), Redis caching, deployment (Vercel, Heroku, Docker basics)

Technical Experience

- Web Development Projects (2024 – Present):
    - Designed and deployed Django-powered applications (Cedarside Concept Limited, The Code Center, nova_store, property-portfolio) with migrations, templates, authentication, and clean UI.
    - Built static and dynamic sites (landing pages, task apps, portfolio site) using HTML, CSS, and JavaScript.
    - Created structured documentation (README & setup guides) to support project deployment and collaboration.
    - Integrated APIs, managed relational databases, and applied responsive design principles for user-centric builds.
- Collaborative Development Experience (2024 – Present):
    - Contributed to small Agile teams, writing clean code, fixing bugs, and participating in reviews.
    - Built reusable UI components in React/Tailwind and optimized frontend workflows.
    - Applied version control (Git/GitHub) for collaboration and deployment.

Projects

(Full list at: Portfolio)

- Cedarside Concept Limited – Django app with responsive UI, authentication, and migration-based backend.
- The Code Center – Django app leveraging JSON for content and data handling.
- nova_store – Prototype e-commerce site using Django backend.
- task management – JavaScript-powered task app with dynamic updates.
- portfolio site – Personal showcase site with projects and contact integration.

Education

- Kings College, Lagos – Secondary School Certificate
- Cale University Secondary School – High School Diploma
